Thematic sessions:

1) *Philosophia* and *sophophilia* compared to current educational challenges

Correlation and mutual dependence of the philosophical and the educational – with/without the regard to period context. Possibilities of philosophical solution of predicaments of contemporary education. Education as a therapy of the resigning culture.

2) Alterations of modernity and postmodernity in educational thinking

Historical attempts to grasp the issue of education in the centre of the transformation movements of the 20th and 21st century. Personalities, conceptions and scientific schools at the turn of the millennia.

3) *Oikonomia* of education

Not only “poetically” but also “educationally” dwells the man. Home as the existential of education of man. Education as a home for becoming a man, among the paradoxes of naturalness and delight of home on one hand and on the other hand its structuring, management and governing. Possibilities and limitations of education institutionalization.
