

Description of the study programme

Name of the higher education institution	Trnavská univerzita v Trnave
Address of the higher education institution	Hornopotočná 23, 918 43 Trnava
Identification number of the higher education institution	318 25 249
Name of the faculty	Pedagogická
Address of the faculty	Priemysel'ná 4, 918 43 Trnava

Institution body for approving the study programme:	Council for Internal Evaluation of the Quality of Higher Education
Date of the study programme approval or the study programme modification:	
Reference to the results of the latest periodic review of the study programme by the institution:	
Reference to the assessment report of the application for accreditation of the study programme under § 30 of Act no. 269/2018 Coll.[2]:	

1. Basic information about the study programme

Name of the study program and its number according to the register of study programmes	Pedagogy, No: 11308 (SL) 183666 (EL)
Degree of higher education and ISCED-F education degree code	III. , ISCED 2011: 864
Place(s) of delivery of the study programme.	Priemysel'ná 4, 918 43 Trnava
Name and number of the field of study in which higher education is obtained by completing the study programme, or a combination of two fields of study in which higher education is obtained by completing the study programme, ISCED-F codes of the field/fields	38. Teaching and pedagogical sciences, ISCED FoET 2013: 0111
Type of the study programme: academically oriented, professionally oriented; translation, translation combination study programme (listing the specializations); teaching, teaching combination study programme (listing the specializations); artistic, engineering, doctoral, preparation for regulated profession, joint study programme, interdisciplinary studies	academically oriented
Awarded academic degree	philosophie doctor (PhD.)
Form of study	full-time
In the case of joint study programmes, cooperating institutions and the range of study obligations the student fulfills at each of the given institutions (§ 54a of the Act on Higher Education Institutions).	it is not a joint study programme
Language or languages in which the study programme is delivered	Slovak / English
Standard length of the study expressed in academic years	3
Capacity of the study programme:	
planned number of students	2
the actual number of applicants	
the actual number of students	

2. Graduate profile and learning objectives

Learning objectives of the study programme such as student's abilities at the time of completion of the programme and the main learning outcomes	
---	--

<p>The graduate of the study field knows the standards, principles and methods of scientific work in the field of educational research. He knows the history and development of the relevant discipline in the international comparative framework, its theoretical foundations and methodology. He/she has extensive professional knowledge from several areas of the relevant discipline as well as from related disciplines and disciplines, which serve as a basis for the implementation of research and development and the creation of new knowledge in the field of educational sciences. Has an overview of the latest scientific knowledge in the relevant discipline in an international context.</p> <p>The graduate of the study program independently plans, designs, organizes and evaluates pedagogical research. He/she is able to work with national and international resource databases. He/she is able to design a research project, work as a member of a research team, but also manage a research and research team. He is capable of interdisciplinary cooperation, he is able to participate in international cooperation in the field. He/she is actively involved in scientific communication in the field, regularly publishes the results of his/her research, participates in the development of the discipline. The graduate is characterized by a high level of scientific and publishing ethics and academic writing. He/she has developed presentation skills. He/she actively participates in public discourse. Can bring and formulate innovative and new research problems or topics. Based on his/her outputs and findings, the graduate can design, verify and implement new research or work procedures. He/she has the prerequisites to supplement and specify the scientific language in the field and in the relevant discipline. He/she has the prerequisites for the creation of new areas of knowledge within the field / discipline.</p> <p>The graduate is characterized by independent, critical and analytical thinking, which can be flexibly applied in terms of theoretical, empirical and applied research. The graduate independently presents the results of research and development to the professional community in the Slovak Republic and abroad. He/she is able to conduct scientific communication in at least one world language. The graduate takes into account social, scientific and ethical aspects in the formulation of research intentions, research implementation and interpretation of research results. He/she is capable of positively influencing public opinion in favor of meeting the goals of the development of the field and the relevant discipline.</p>	
Professions for which the graduate is prepared at the time of completion and the potential of the study programme from the point of view of graduate's employability	Assistant Professor at the University, Researcher at the University, Researcher at the SAS, Researcher at public research institutions, Researcher at scientific research organizations, eventually relevant research departments, research and development staff in the relevant research and development departments in enterprises and the non-public sector.
Relevant external stakeholders who have provided the statement or a favorable opinion on the compliance of the acquired qualification with the sector-specific requirements for the profession	<p>doc. PhDr. Martin Strouhal, Ph.D., Head of the Department of Pedagogy at the Faculty of Arts, Charles University in Prague. It is the oldest department of pedagogy in the Czech Republic, which has been implementing the doctoral program in Pedagogy for many years.</p> <p>Mgr. Dominika Glozmeková - full-time doctoral student in the School Pedagogy program at the Faculty of Education, Trnava University in Trnava</p> <p>Bc. Veronika Strížencová - full-time master's student in the Teacher Training for Primary Education program, participant in internships at foreign universities and member of the Teach for Slovakia team</p>

3. Employability	
Evaluation of the study programme graduates employability.	Due to the low number of graduates, the portal www.uplatnenie.sk does not provide the relevant data. However, due to this low number, the employability of graduates is easily traceable. Since 2015, all graduates have been employed in the field of Teaching and Pedagogical Sciences, the vast majority of them as assistant professors at universities, some of them as researchers at SAS.
indication of the successful graduates of the study programme.	Mgr. Kamila Urban, PhD. (currently a member of the Scientific Board of ÚVSK SAS, assistant professor at the Faculty of Arts, Charles University in Prague, holder of a Fulbright grant at North Carolina State University)
Evaluation of the study programme quality by employers (feedback).	Mgr. Jana Fuskova, PhD. (holder of the Š. Swartz scholarship for the best graduates of doctoral studies, researcher at the ÚVSK SAS, holder of a grant from the US Embassy in the Slovak Republic focused on the protection of human rights and culture)
	Mgr. Peter Lenčo, PhD. (General Director of the Slovak Youth Institute - IUVENTA)
	Evaluation by FoEd TU graduates and employers (FoA CU in Prague) - in the appendix

4. Structure and content of the study programme	
Rules for the design of study plans within the study programme	Internal quality assurance system of higher education at Trnava University in Trnava https://www.truni.sk/sites/default/files/rektor/vnutorny-system-kvality-tu_schvaleny-vr-tu_november-2021_0.pdf Rules for creating, editing, approving and evaluating the quality of study programs at Trnava University in Trnava https://www.truni.sk/sites/default/files/rektor/studijne-programy_pravidla-tu.pdf Instruction of the Dean on the adjustment and harmonization of study programs at the Faculty of Education, Technical University in Trnava
Recommended study plan	pdf enclosed: OŠP_PhD._Pedagogy_ENG.pdf
Number of credits, the achievement of which is a condition for proper completion of studies and other requirements that the student must meet within the study programme and for its proper completion	180
Conditions for admission to state examinations:	successfully completed all compulsory subjects, meeting the minimum requirements in individual groups of OE subjects, defense of the dissertation project, dissertation exam and obtaining a total of 140 credits before the defense of the dissertation.
Rules for re-study	a student may re-apply for study after a method of completion other than graduation
Rules for the extension and interruption of study	https://www.truni.sk/sites/default/files/rektor/studijny_poriadok_tu_final_web_1.pdf https://pdf.truni.sk/download?dolezite/studijny-poriadok-PdF-TU-2019.pdf https://pdf.truni.sk/download?dolezite/smernica-1-2019-o-doktorandskom-studiu.pdf

requirements for completing the individual parts of the study programme and the student's progress within the study programme in the given structure:	
- number of credits for compulsory courses required for proper completion of studies/completion of a part of studies,	86
- number of credits for compulsory optional courses required for the proper completion of studies/completion of a part of studies,	80
- number of credits for optional courses required for the proper completion of studies/completion of a part of studies,	14
- number of credits required for the completion of studies/completion of a part of the studies for the common foundations and for the relevant specialization, in the case of a teaching combination study programme or a translation combination study programme,	it is not a combination programme
- number of credits for the final thesis and the defense of the final thesis required for the proper completion of studies,	40
- number of credits for professional practice required for the proper completion of studies/completion of a part of studies,	
- number of credits required for the proper completion of studies/completion of a part of the studies for project work with the indication of relevant courses in engineering study programmes,	it is not an engineering programme
number of credits required for the proper completion of studies/completion of a part of the studies for artistic performances in addition to the final thesis in art study programmes	it is not an art study programme
Rules for verification of learning outcomes, students assessment and the possibilities of appealing against the assessment	The conditions and rules for the successful course of study and its completion, the conditions for passing state examinations, as well as other conditions and rules for resolving study-related situations are defined in the study rules of the university and faculties; https://www.truni.sk/sites/default/files/rektor/studijny_poriadok_tu_final_web_1.pdf https://pdf.truni.sk/download?dolezite/studijny-poriadok-PdF-TU-2019.pdf https://pdf.truni.sk/download?dolezite/smernica-1-2019-o-doktorandskom-studiu.pdf
g) Conditions for recognition of studies or a part of studies	Conditions and rules for recognition of previous study results are defined in the study rules of the university and faculties: https://www.truni.sk/sites/default/files/rektor/studijny_poriadok_tu_final_web_1.pdf https://pdf.truni.sk/download?dolezite/studijny-poriadok-PdF-TU-2019.pdf
The topics of final theses of the study programme	The list of these including the advisors and their workplaces is available in the central register of final theses. Departments guaranteeing the study program are marked with the code: 102150 and 102160
Rules for the assignment, processing, opposition, defense and evaluation of final theses in the study programme	In the doctoral study, the applicant applies for a specific topic of the dissertation, a specific supervisor. The rules for the assignment, reviewing, defence and evaluation of final theses are defined in the study rules of the university and faculties: https://www.truni.sk/sites/default/files/rektor/studijny_poriadok_tu_final_web_1.pdf https://pdf.truni.sk/download?dolezite/studijny-poriadok-PdF-TU-2019.pdf The rules for the elaboration of the final thesis are part of the directive of the Rector of the Trnava University in Trnava on bibliographic registration, control of originality, access, storage and basic requisites of final, rigorous and habilitation theses. https://www.truni.sk/sites/default/files/cis/uni_system/ezp/ezp_smernica_o_bibliografii.pdf
Opportunities and procedures for participation in student mobility	The possibilities and conditions of participation in mobilities are defined in the Rector's DIRECTIVE No. 2 2020 on the implementation of the ERASMUS + program at TU. https://www.truni.sk/sites/default/files/zo/smernica_c.2_2020_o_realizacii_programu_erasmus.pdf The university became a holder of the ECTS and DS Label in 2016, and for this reason after returning from the mobility, student credits are recognised, either as a substitute for study program subjects, if there is an equivalent to them, or as credits for elective courses. study rules of the university and the faculty: https://www.truni.sk/sites/default/files/rektor/studijny_poriadok_tu_final_web_1.pdf https://pdf.truni.sk/download?dolezite/studijny-poriadok-PdF-TU-2019.pdf .

Rules for adherence to academic ethics and rules for drawing consequences	TU has the Ethics Committee which solves questions and problems related to the observance of academic ethics by employees and students. Relevant information related to the Ethics Committee and its scope is published on the University website. https://www.truni.sk/sites/default/files/rektor/3_2015_eticky-kodex-tu-final-1.pdf
Procedures applicable to students with special needs	The university provides full-fledged study for students with specific educational needs by creating appropriate arrangements and support services. The university coordinator together with the faculty coordinators initiate the following activities: <ul style="list-style-type: none"> • identification of students with special needs, • providing information and counseling for students with special needs, • creating suitable conditions for using the services of all parts of the Student Support Center (psychological and legal counseling, sports activities), • education of teachers, staff and students of the Trnava University in order to gain the right access to students with special needs, • cooperation with the study departments of the faculties in connection with the admission procedure for students with special needs, • provision of priority accommodation for students with special needs in barrier-free areas, • establishing contacts with other organizations that are helpful for students, • provision of compensating aids (reading magnifiers, positioning couch, hearing aids, etc.). The faculty coordinator for students with special needs is: PaedDr. Nada Bizova PhD., nada.bizova@truni.sk . All processes of obtaining and using the status are governed by the Rector's directive: https://www.truni.sk/sites/default/files/rektor/smernica_rektora_c_17_2013_o_podpore_studentov_a_uchadzacov_o_studium_so_pecifikymi_potrebami.pdf
Procedures for filing complaints and appeals by students	In the case of suggestions and appeals related to the study, evaluation of their results, students have the opportunity to submit a written complaint / application to the vice dean for pedagogical activities. If someone is interested in passing the commission exam, the procedure is in accordance with the study rules. https://pdf.truni.sk/download?dolezite/studijny-poriadok-PdF-TU-2019.pdf

5. Course information sheets of the study programme	
	course information sheet (pdf enclosed)
6. Current academic year plan and current schedule	
Current academic year plan	https://pdf.truni.sk/student?harmonogram-studia
Current schedule	https://pdf.truni.sk/student?rozvrhy
7. Persons responsible for the study programme	
A person responsible for the delivery, development, and quality of the study programme (indicating the position and contact details).	prof. PhDr. Branislav Pupala, CSc., branislav.pupala@truni.sk
List of persons responsible for the profile courses of the study programme	prof. PaedDr. Ondrej Kaščák, PhD., okascak@truni.sk prof. PhDr. Ivan Lukšik, CSc., ivan.luksik@truni.sk prof. PhDr. Oľga Zápotočná, CSc., olga.zapotocna@truni.sk prof. PhDr. Ing. Blanka Kudláčová, PhD., blanka.kudlacova@truni.sk
List of the supervisors of final theses with the assignment to topics (indicating the contact details).	The list of theses including the advisors and their workplaces is available in the central register of final theses. Departments guaranteein
Reference to the research/art/teacher profiles of the supervisors of final theses.	Their list and profiles are published on the following pages: https://pdf.truni.sk/katedry/ksp/pracovnici https://pdf.truni.sk/katedry/kps/pracovnici
Student representatives representing the interests of students of the study programme (name and contact details).	Mgr. Dominika Glozmeková, dominika.glozmeková@tvu.sk Mgr. Žaneta Staníková, zaneta.stanikova@tvu.sk

Study advisor of the study programme (indicating contact details and information on the access to counseling and on the schedule of consultations).	Mgr. Jana Fúsková, PhD. https://pdf.truni.sk/katedry/ksp/pracovnici?fuskova
Other supporting staff of the study programme – assigned study officer, career counselor, administration, accommodation department, etc. (with contact details).	study department: Ing. Ľubica Cepková, lubica.cepkova@truni.sk career counselor: Miroslav Koleník, info@nakac.sk , doc. Mgr. Dana Masaryková, PhD., dana.masarykova@truni.sk accommodation department: Ing. Miroslava Baranová, miroslava.baranova@truni.sk international relations department: Zuzana Jakubovská, zuzana.jakubovska@truni.sk

8. Spatial, material, and technical provision of the study programme and support

List and characteristics of the study programme classrooms and their technical equipment with the assignment to learning outcomes and courses (laboratories, design and art studios, studios, workshops, interpreting booths, clinics, priest seminaries, science and technology parks, technology incubators, school enterprises, practice centers, training schools, classroom-training facilities, sports halls, swimming pools, sports grounds).	<p>PdF TU in Trnava has the following premises for the needs of securing the study program:</p> <ul style="list-style-type: none"> - on Priemyselná Street No. 4 in the building of the faculty headquarters: 1 hall with a capacity of 130 seats, 5 lecture rooms, each with a capacity of about 60 seats, 8 seminar rooms, each with a capacity of about 25 seats - on Hollého street in the university building: 2 lecture room with a capacity of 80 seats, 5 seminar rooms, each with a capacity of about 40 seats. Within the implementation of two projects from EU structural funds , the rooms were provided with laptop, visualizer, LCD TV, interactive whiteboard). <p>The current equipment of science-oriented departments, providing the study programme allows students to work in six specialized laboratories focusing on general and inorganic chemistry, organic chemistry and biochemistry, analytical and physical chemistry, technology and didactics of school chemical experiments, botany-plant physiology and zoology, zoology and environmental experiments. An important part of teacher training also includes professional practice at training schools. In recent years, their material equipment has been innovated within several domestic and foreign projects (eg Fibonacci and Pri-Sci-Net, interreg). From the instrumentation and laboratory equipment of the laboratories of the departments, we present:</p> <p>air-conditioned cultivation room with table with artificial lighting for hydroponic and soil experiments, table pH meter (inoLab® pH 7110 SET 2), laboratory analytical scales with an accuracy of 1 mg (Kern and Sartorius), automatic pipettes stmp. Biohit Proline with optional volume, various max. volumes, high-speed analytical grinder IKA A11 basic, forced air dryer usable as a sterilizer (Nüve FN500), refrigerated (micro) centrifuge (Hettich Mikro 200R), spectrophotometer for visible and UV measurements (PGI T-60 UV / VIS), flow box for work with sterile cultures (Esco AC2-4E8 AIRSTREAM® CLASSII), microscopes Bresser Junior 40x-1024x + USB camera, UV-Vis spectrophotometer Varian Cary 50 - for determination of P, nitrites, nitrates, continuous (flow) electrochemical Ecaflow Model 150 GLP analyzer - analyzer for determination of metals, semi-metals, and organic acids, device for preparation of deionized water Millipore - (<0.05 µS.cm-1), microscope ZEISS Primostar with digital camera for microbiological experiments, centrifuge - device for easy separation molecules of substances, vacuum evaporator, pyrolysis reactor Arnold 94 (AIT Austria), analytical balances, pyrolysis furnace Carbolite EST, atomic absorption spectrometer AAS with atomization of the sample in flame i and electrothermal atomization Agilent 240FSAA - for the determination of selected metals, UV-Vis spectrophotometer Specord 50, Vernier system for the implementation of demonstration experiments in the didactics of chemistry.</p>
Characteristics of the study programme information management (access to study literature according to Course information sheets, access to information databases and other information sources, information technologies, etc.).	<p>The University Library of Trnava University is the central library of Trnava University (hereinafter also "TU"). It provides professional library and information services, keeps and bibliographically registers qualifications, bibliographically registers the publishing activities of teachers, researchers and doctoral students of TU, provides library and information services to students, teachers and employees of TU as well as the professional public. It organizes professional events and provides information training. It develops relations with domestic and foreign partners, especially through the exchange of documents. Mutual relations between the library and its users are regulated by the Library and Lending Regulations. The mission, basic tasks and organizational structure are defined by the Organizational Rules of the TU University Library.</p> <p>The profile of the library corresponds to the nature of study fields at TU. The main focus is on library units in the field of humanities and natural sciences. Print library units complement electronic information sources, accessible on the basis of IP addresses TU. The Faculty of Education publishes study literature (textbooks) for students exclusively in an electronic version. Educational materials are stored in the electronic library, which is freely available on the faculty's website: https://pdf.truni.sk/veda-vyskum?e-kniznica#online. A lot of materials are also published in MOODLE courses. This greatly facilitates their accessibility for students. In addition, all departments of the faculty also have their own reference libraries, which also provide students with literature, used mainly in the working on qualification theses.</p>

<p>Characteristics and extent of distance education applied in the study programme with the assignment to courses. Access, manuals of e-learning portals. Procedures for the transition from contact teaching to distance learning.</p>	<p>The university uses central information systems to implement modern forms of the teaching process and managerial activities related to management and main processes:</p> <ol style="list-style-type: none"> 1. Modular academic information system MAIS 2. Electronic education systems - EKP and Moodle, MS TEAMS 3. DAWINCI library information system 4. Virtual university 5. Financial information system SOFIA 6. Identity Management System (Novell IDM) 7. Automated Person Identification System (SAIO) 8. Information System for Administration and Management (ISSM) 9. University network systems and services <p>Within the university data network, several systems and services are available to users, which are centrally managed on university servers:</p> <ol style="list-style-type: none"> a) Wireless data network (wifi) services b) Webhosting services for websites of components HERE c) University data archiving system d) MeetVideo and EVO video conferencing systems <p>During the time of the pandemic, the university ensured a smooth transition to online education through Moodle and MS Teams, subjects whose nature did not allow this transition were provided in blocks, or their implementation was postponed to the next teaching period.</p>
<p>Institution partners in providing educational activities for the study programme and the characteristics of their participation.</p>	<p>The faculty and the relevant departments providing the study program have been cooperating for a long time with governmental institutions such as ŠPÚ and MPC and research institutions such as SAS. Doctoral students participate in project activities and conferences organized by the SPU and the MPC. A doctoral study program was even implemented in collaboration with the SAS for a long time, in which the Institute of Social Communication Research of the SAS participated as an external educational institution. At this institute, students receive part of their scientific training, participate in project activities and several of them have also been employed by the SAS. Charles University in Prague, especially the Department of Pedagogy, is a traditional partner in the implementation of the program, where students of doctoral studies carried out at both workplaces meet on an informal basis.</p>
<p>Characteristics of the possibilities for social, sports, cultural, spiritual and social activities.</p>	<p>The university also creates conditions for its students for regular sports activities. Athletes can choose from: football, volleyball, basketball, futsal, floorball or swimming. Since 2004, it has been organizing Sports Days, the aim of which is competition between students and employees of individual parts of the university. Traditionally, competitions in basketball, volleyball and futsal are held for the TU rector's cup and table tennis tournaments for the master of the university. The best athletes from these competitions represent the university at regular academic competitions in the Slovak Republic or occasional competitions between Slovak universities. In addition, students have the opportunity to sign up for various dance and aerobic classes. An overview of the offered activities is published at: https://www.truni.sk/sportove-aktivita.</p> <p>The university also has a student council which organizes various social, cultural and sports activities for students (https://www.facebook.com/studentska.rada.truni/), and spiritual activities are provided by the university pastoral center (https://upece.sk/).</p>
<p>Possibilities and conditions for participation of the study programme students in mobilities and internships (indicating contact details), application instructions, rules for recognition of this education.</p>	<p>The possibilities and conditions of participation in mobilities are defined in the Rector's DIRECTIVE No. 2 2020 on the implementation of the ERASMUS + program at TU.</p> <p>https://www.truni.sk/sites/default/files/zo/smernica_c.2_2020_o_realizacii_programu_erasmus.pdf</p> <p>The university became the holder of the ECTS and DS Label in 2016, and for this reason student credits are recognized after returning from mobility, either as a substitute for study program subjects, if there is an equivalent to them, or as credits for elective courses, as stated by study rules of the university and the faculty:</p> <p>https://www.truni.sk/sites/default/files/rektor/studijny_poriadok_tu_final_web_1.pdf</p> <p>https://pdf.truni.sk/download?dolezite/studijny-poriadok-PdF-TU-2019.pdf.</p>

9. Required abilities and admission requirements for the study programme applicants

Required abilities and necessary admission requirements.	The possibilities and requirements for admission to study for individual study programmes for the following academic year are part of the annually approved document Requirements of Admission to Study. The current conditions of the admission procedure are published on the website of the faculty, but also on the portal vs: https://pdf.truni.sk/uchadzac The Faculty also publishes the requirements for the minimum competencies necessary for study at study programs accredited at the Faculty of Education of the Technical University in Trnava: https://pdf.truni.sk/download?priimacie-konanie/prijimacie-konanie-minimalna-sposobilost-2021.pdf
Admission procedures.	Admission procedures and requirements are defined in the study rules of the university and faculties: https://www.truni.sk/sites/default/files/rektor/studijny_poriadok_tu_final_web_1.pdf https://pdf.truni.sk/download?dolezite/studijny-poriadok-PdF-TU-2019.pdf
Results of the admission process over the last period.	Applicants who have met the set requirements for admission to study are sent a decision on admission to study with other relevant documents. The results of the admission procedure are part of the academic information system.

10. Feedback on the quality of provided education

Procedures for monitoring and evaluating students' opinions on the study programme quality.	The University of Trnava in Trnava has an internal quality system based on national and international quality assessment frameworks for universities. The processes of monitoring the quality of the study program and monitoring students' opinions are carried out in accordance with the Rector's Directive on the Internal Quality Assurance System of Higher Education at the Trnava University in Trnava. https://www.truni.sk/sites/default/files/rektor/nutorny-system-kvality-tu_schvaleny-vr-tu_november-2021_0.pdf Procedures related to the provision of study programs are set out in the document Rules for the Creation, Modification, Approval and Quality Assessment of Study Programs of the Trnava University in Trnava https://www.truni.sk/sites/default/files/rektor/studijne-programy_pravidla-tu.pdf
Results of student feedback and related measures to improve the study programme quality.	The results of the feedback of graduates, together with the opinion and possible solution of the identified problems, are published on the intranet of the university and remain in the academic information system MAIS.
Results of graduate feedback and related measures to improve the study programme quality.	The results of the graduate feedback analysis, together with the opinion of the university management or faculties are published on the Internet of the university or the relevant faculty.

References to other relevant internal regulations and information concerning the study or the study programme student (e.g study guide, accommodation regulations, fee directive, guidelines for student loans, etc.).
